Essential fatty acids are fats that the body does not create itself, and must be ingested from a diet or supplement. Our Omega formula is high in EPA and DHA, essential fatty acids required important biological processes.

Omega supports the body's ability to maintain heart health, immune function, mental acuity, cholesterol, cellular health and normal tissue activity. One of the biggest benefits of Omega is its ability to support skin cells. This is especially important for older people, as skin becomes thin and easily bruised with age.

#### INSIDE OUR SPECIALIZED FORMULA

Inside our Omega formula, you'll find Vitamin E and Natural Marine Oil, which support your body without the negative side effects that come from using products or toxic ingredients.

#### SHOULD I USE OMEGA?

Getting enough Omega fatty acids is essential for human development, health and wellness. 50% of all the cell wall in the body is comprised of fatty acids, the better the fatty acids, the better the cell.

#### WHAT MAKES OMEGA UNIQUE?

Here at Veo Natural, we're committed to offering high value, quality products.

That's why we don't use fillers, and triple-test our formulas to ensure we provide the purest, most effective supplements on the market.
